

Type 2 Diabetes Path to Remission Programme (T2DR)

EMIS Web

This programme is designed to support people to improve their diabetes control, reduce diabetes-related medication and in some cases, put their Type 2 diabetes into remission.

Accessing the Reports

1. Access and download the EMIS Web reports from the [LHIS Primary Care Resource](#)
2. Or
3. Population Reporting

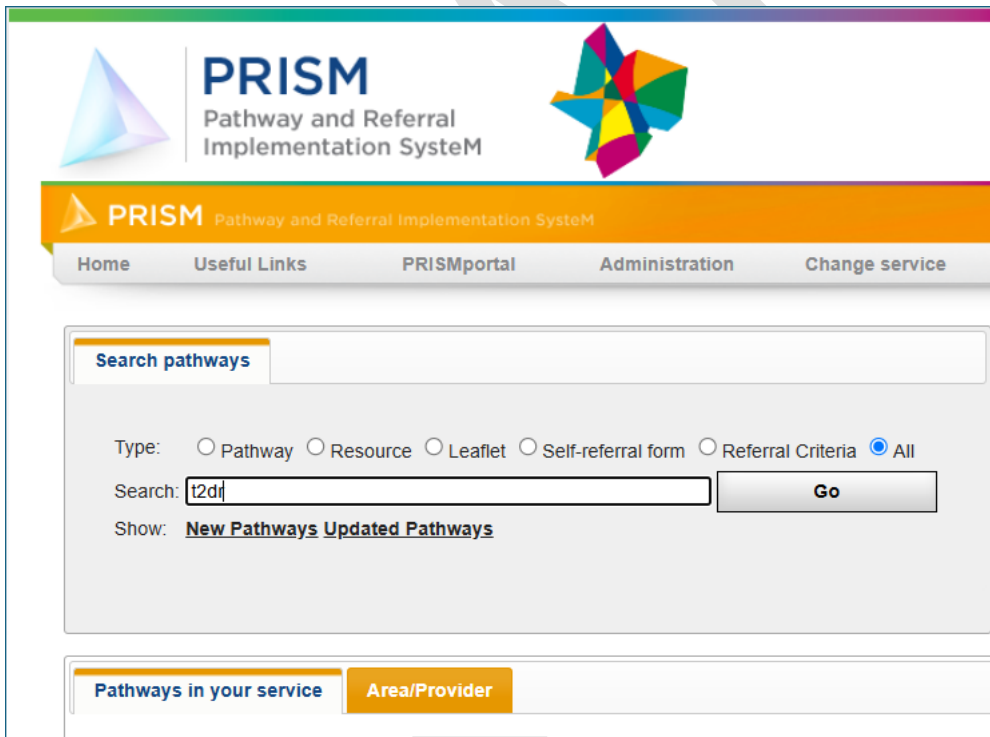

4. Expand the **2425 LLR Target Patients folder > T2DR Programme folder**
5. Locate the **T2DR Programme Reports**.

Name
 T2DR Programme 1 Eligible patients
 T2DR Programme 2 Rev meds as may be eligible
 T2DR Programme 3 Low Calorie Diet

6. Copy the folder and contents and paste into your local folder structure.
7. Once you have run the report click  to show patients.

Referring Patients

Referring patients to the NHS Type 2 Diabetes Path to Remission Programme is done via PRISM.

The screenshot displays the PRISM web application interface. At the top, there is a header with the PRISM logo and the text 'PRISM Pathway and Referral Implementation System'. Below the header is a navigation menu with links for 'Home', 'Useful Links', 'PRISMportal', 'Administration', and 'Change service'. The main content area features a search box titled 'Search pathways' with a search input field containing 't2d' and a 'Go' button. Below the search input, there are radio buttons for selecting the search type: 'Pathway', 'Resource', 'Leaflet', 'Self-referral form', 'Referral Criteria', and 'All' (which is selected). Below the search type selection, there are two links: 'New Pathways' and 'Updated Pathways'. At the bottom of the search area, there are two tabs: 'Pathways in your service' and 'Area/Provider'.

8. Use the search feature within PRISM.
